MR. J. J. PRATT: - During the past four days have been asked several times my opinion of the Hazelton Bros. Pianos.

During the past fifteen years I have mostly spent my time tuning and repairing pianos, and have tuned many old and new Hazelton Pianos. The tones are fine and clear, yet brilliant, the action good; they stay in tune admirably, and, taking all things into account, I think there are no better pianos made than the Hazelton Bros.
